"Manufacturing
the best family pools for over
40 years."

Dear Valued Customer,

At Freedom we have designed and manufactured 95,000 quality fibreglass swimming pools over 40 years. In that time our innovative approach to design has earned us the accolades of judges the world over, confirming Freedom's status as Australia's most awarded swimming pool manufacturer.

We are continually looking for ways to further improve our products and services through new technology, smarter design and customer interaction. With over 17 sensational designs to choose from, all manufactured, designed, constructed and tested to conform to full Australian Standards, and a full lifetime manufacturer's guarantee of 35 years, you'll be spoilt for choice.

If, like most Australians and New Zealanders, you choose to install a Freedom pool, we can promise you a level of personal attention and service that is, quite simply, second to none.

OUR AWARDS

Freedom is the most awarded

When it comes to industry recognition for excellence, Freedom are clear winners and have won more awards both locally and internationally, than any other pool manufacturer in Australia.

Time and again, Freedom takes the lion's share of awards at the swimming pool and spa association (SPASA) awards in Australia.

At the NSPI Awards, one of the most prestigious industry events in America, Freedom Pools was recognised by an international panel of judges as being one of the world's best pool manufacturers and awarded an unprecedented two gold and two bronze awards. It's a clear indication of the commitment to excellence that Freedom Pools has made.

WHO ARE WE?

The Story of Freedom New Zealand

Freedom Pools New Zealand, founded in 2003 has been providing the best pool choice on the market for kiwi families for over 16 years.

As Freedom is Australia's top manufacturer of fibreglass pools, we cherish our association with them and are thrilled to be part of the team. Over the years, the Freedom Pools supplied by Freedom New Zealand have been the centrepiece of family entertainment at many kiwi homes. They have also been the centrepiece in landscape designs, designed by a wide range of New Zealand's very own world class designers, architects and landscapers.

We have put together a sophisticated range of collections from Freedoms state of the art factories in Australia. Each lifestyle enhancing design is manufactured with a luxurious MarbleTech™ interior, of which we invite you to select your preferred option of colour.

The head office for Freedom Pools New Zealand is located on the Hibiscus Coast north of Auckland, but as the service we provide is carried out at your property, we have established a network of expert pool consultants that service up and down New Zealand to accommodate your needs. Our

pool consultants are there to provide you a high level of personal attention and assistance with planning your pool area and to price it. As our customer your needs are our main priority and we're here to assist throughout the whole journey and help your vision become your reality.

To get started, you can take advantage of our free no obligation site inspection service. This gives the pool consultant an opportunity to help determine what may be the best options to compliment the uniqueness of your property.

At Freedom Pools New Zealand we have always understood that a pool is a once in a life time purchase for most Kiwis and that is why we are dedicated to making your experience with our pool consultants one to remember.

WHY CHOOSE FREEDOM

A watertight case for choosing fibreglass

- 1. **Quick as a splash** - Your fibreglass pool can be installed in as little as 2 days after council approval.
- 2. **The big finish** - An impressive resin technology surface finish, called 'gelcoat' is applied during manufacture. So you need not spend time and money on tiling, painting and resurfacing.
- 3. **Maintenance free** - Under normal conditions, the 'gelcoat' finish never needs painting and it cleans easily. MarbleTech™ is the most robust surface in the fibreglass swimming pool industry.
- 4. **Warmer water** - Fibreglass is an insulator so the water is insulated from the cold ground soils.
- 5. **Smooth and Safe** - Unlike some other materials, a fibreglass pool is not abrasive and there are no sharp edges. Just smooth seating areas.
- 6. **Flexing its Muscle** - The high tensile strength of fibreglass lets the pool shell flex without cracking to accommodate for earth movement.
- 7. **You get what you see** - The pool design you select is exactly what you get at home. No hit or miss guesswork as the pool shell arrives on site preformed and complete.
- 8. **Look the part** - Fibreglass pools come in a fabulous range of colours, shapes, and sizes.
- 9. **Colour like no other** - Our MarbleTech™ ingenious design includes pigment and pearlescent gelcoats that look like marble and are completely unique to any other finish available. The pigment provides the appealing colour while the pearlescent reflects sun light through the water creating stunning cosmetic effects.
- 10. **Spend a little less** - Our Eco-pure Gelcoat is a revolutionary microbial inhibitor unique to Freedom. This helps prevent algae growth on the surface of your swimming pool and can reduce up to 99% of common bacteria by using a Chlorinator. Spend less time cleaning and less money on chemicals.

We're all about **innovation, quality and excellence** in client service delivery.

SIMPLY THE BEST

Freedom is quality

Freedom Pools prides itself on delivering only the best quality products on the market. We uphold this promise as all of our pools are governed by the strictest of Australian and New Zealand standards. When you buy from Freedom Pools, you are guaranteed peace of

mind and will receive the utmost in reliability, function, comfort and style. Only Freedom Pools is Australian Standards Quality Certified to AS/NZS 1838, AS/NZS 150 9001, AS/NZS ISO 14001, and AS/NZS 4801.

All of our fibreglass pools are built and certified to Australian Standards AS/ NZS 1838. The pools built in the factory are built under the strictest quality control guidelines, that only few companies can achieve and boast about.

Freedom Pools was the first fibreglass company in Australia to be Environmentally Certified to AS/ISO 14001. We strive to deliver more energy efficient and reduced waste solutions for pool manufacture.

Our quality management system is certified to AS/NZS ISO 9001:2008. This means that our procedures and processes are reviewed on a regular basis and our focus is on customer satisfaction and continual improvement.

Australian Standard AS/NZS 4801 is for safety management in the workplace. This ensures all staff adhere to correct procedures, which results in delivering and installing your pool in the safest way possible.

*Freedom Pools is the **only company** in New Zealand that is quality certified to build under all four AS/NZS PAS-Mark conformance accreditations.*

As a member of the HIA, (Housing Industry Association), we are familiar with all codes and regulations concerning installing pools into private homes. We are compliant from the ground up, and will always install your pool in a safe and environmentally considerate manner.

The Australian Swimming Pool and Spa Association is our governing body which assists us with Government Legislation, and is a third party to assist our customers. All Freedom Pools customers are fully covered for pool completion insurance. Rest assured knowing you are in safe hands dealing with a National Swimming Pool Association Member.

The design and structural integrity of our pools is second to none. However, for that added peace of mind, all of our fibreglass pools come with a massive Lifetime Structural Warranty. This assures our valued customers that they are investing in the best pools available.

As a New Zealand Master Pool Builder, we receive regular updates on any new information, regulations and change in bylaws surrounding the pool industry. This means we are always in the know and have any relevant information at our fingertips.

*The accreditation above is assurance that you are **buying the best.***

Experience to match

We've been at the top of our game for a long time. With over 40 years in the Australian pool industry, we have remained at the forefront of pool technology and design. Freedom Pools offers the experience and capability to successfully and professionally meet any of your swimming pool needs. We guarantee it.

INNOVATION

It's our middle name

At Freedom we haven't just been designing and manufacturing pools and spas since 1974, we've also been leading the way in new technology, thanks to our huge investment in research and development. It was Freedom that introduced MarbleTech™, the interior that revolutionised the pool and spa industry.

Other world firsts include the revolutionary EcoPure™ antimicrobial system that provides protection for the lifespan of your pool. Freedom is committed to manufacturing the best pool possible with the least impact on the environment.

Eco-friendly Manufacturing

PAS-Mark
Environmental
Management System
Conformance
ISO-AS/NZS 14001
ID No: 1853

If you're environmentally conscious you can now make eco decisions when choosing your swimming pool or spa. With our new eco-friendly pool manufacturing technology, the construction of pools has evolved. We conform to strict criteria in order to maintain our certified Eco-Friendly status presented by CSI.

Freedom Pools has created Australia's first eco-friendly fibreglass pool range, with the application of this new technology to the manufacturing process, resulting in less waste and a reduced carbon footprint. This means you can enjoy the pleasures of a backyard swimming pool or spa knowing that you've made an environmentally conscious investment.

At Freedom we care for the environment and for us, what once was a toxic yet money saving process is now much environmentally friendlier one. Freedom is a Family business and this demonstrates our commitment to the environment and how much we care about what is left for our future generations.

If you want to enjoy family entertainment without guilt for the environment, then Freedom manufactures the pool for you. Our future generations deserve it.

Freedom upholds unparalleled standards with manufacturing your new pool

When purchasing a Freedom pool, you not only invest in enhancing your family's lifestyle by sophisticated design and luxurious MarbleTech™ interior, you also invest in technology that will serve you for a life time - not to mention the investment made to help reduce impact on the environment for future generations. As a pool is a once in a life time purchase, do it once and do it right with a Freedom Pool.

Other industry firsts include our marble look-alike cascading waterfall modules.

CSI Certification

Freedom have been in compliance with AS/NZS Australian Standards 1838 for over 35 years. It was only years ago, when this standard was not mandatory in Australia and Freedom was the only manufacturer who possessed the technology to comply and exceed these standards. It is facts like this that confirm our status as the leader in pool manufacturing technology. This accreditation means that your freedom pool complies to and may exceed the product standards.

Freedom's investment in conforming to this standard means, the processes which are applied to create and control the manufacture of our pools, utilises a systematic approach. This creates greater focus for productivity and efficiency.

Unlike other manufacturers, we care a lot about our staff too. Implementing this standard demonstrates our commitment to maintaining an effective and safe working environment for our expert craftsmen and administrators alike. This ensures that they feel safe in their work place and that morale is at its highest so they can perform to Freedom's unparalleled standards with manufacturing your new Freedom Pool.

MarbleTech™ Interior

Our exclusive MarbleTech™ interior has revolutionised the fibreglass industry. MarbleTech™ is an innovative marine gelcoat finish developed by Freedom Pools. MarbleTech's™ ingenious design includes pigment and pearlescent gelcoats that look like marble and are completely unique to any other finish available. The pigment provides the appealing colour while the pearlescent reflects sun light through the water creating stunning cosmetic effects.

It's an interior that is hugely desired and in high demand. MarbleTech™ is a luxury that you deserve. MarbleTech™ finishes are available in a wide range of beautiful colours and effects so you can have the sparkling pool that you've always wanted. MarbleTech™ not only has a luxurious appearance but is also fade resistant, giving you the peace of mind that your swimming pool will continue to look great for years to come. MarbleTech™ has been designed to be robust enough to withstand the environmental conditions of New Zealand and Australia.

*MarbleTech™ is the most
fade resistant Gelcoat surface on the market.*

Invest in the best,
when only the
best will do.

Eco-Pure Gelcoat

Who doesn't want a swimming pool or spa with safer, cleaner water – and use fewer chemicals to achieve it? That was the motivation at Freedom Pools when we developed Eco-pure – a revolutionary microbial inhibitor now included in the gelcoat finish of every Freedom fibreglass pool. This clever, highly effective ingredient helps prevent algae growth on the surface of your swimming pool and can reduce up to 99% of common bacteria*.

That means you'll spend less time fiddling around with the chemicals in your pool and less money on buying chemicals. With fewer chemicals, you'll be safe in the knowledge that you're swimming in a pool that's more natural and eco-friendly. Not only that, but Eco-pure is UV, chlorine and fade resistant, and provides protection for the life of your pool.

Eco-pure is part of Freedom Pools' commitment to being an eco-friendly manufacturer. We use the latest construction methods and LSE gelcoats that ensure maximum strength and quality. Our process results in minimal waste and landfill while reducing carbon emissions and minimising other impacts on the environment.

It's just part of the added value you receive when you choose your fibreglass pool or spa from Freedom Pools. Why settle for less when you can have the best?

**In conjunction with normal sanitisation.*

SUPERIOR CONSTRUCTION

Quality Certified Pool Construction

Pool Construction Diagram

Below is a wall sample of our fibreglass pools showing each quality material, layer by layer.

A. Cosmetic Layer: Freedoms chemical resistant and U.V stabilised gelcoat formulated with our exclusive EcoPure™ antimicrobial system is applied. This exciting technology reduces algae growth by up to 99%*, along with superior fade and chlorine resistance that can't be beaten. Our interiors are available in a selection of luxurious MarbleTech™ finishes exclusive to Freedom.

B. Corrosion Barrier: Freedom applies a layer of clear epoxy based vinyl ester resin. Unlike other companies who use a coloured resin to hide air bubbles, Freedom use a clear layer so that air bubbles trapped by application can be identified and removed. Going this extra step creates a barrier that is completely impervious to water providing guaranteed osmosis protection.

C. Structural Layers: 100% clear polyester resin is used in the two structural fibreglass layers. Unlike using any old resin mixed with ceramic fillers, our clear polyester resin ensures that strength properties are superior for the conditions of Aotearoa. Freedoms polyester resin provides superior flexural strength to the structure which allows it to perfectly accommodate to Aotearoa's mighty ground movements between the seasons. As an added bonus of using fibreglass to build a pool, fibreglass acts as a great insulator. We only use clear resin so trapped air bubbles can be identified and removed.

D. Close-beam construction means your pool is built using the strongest method of construction available in the industry.

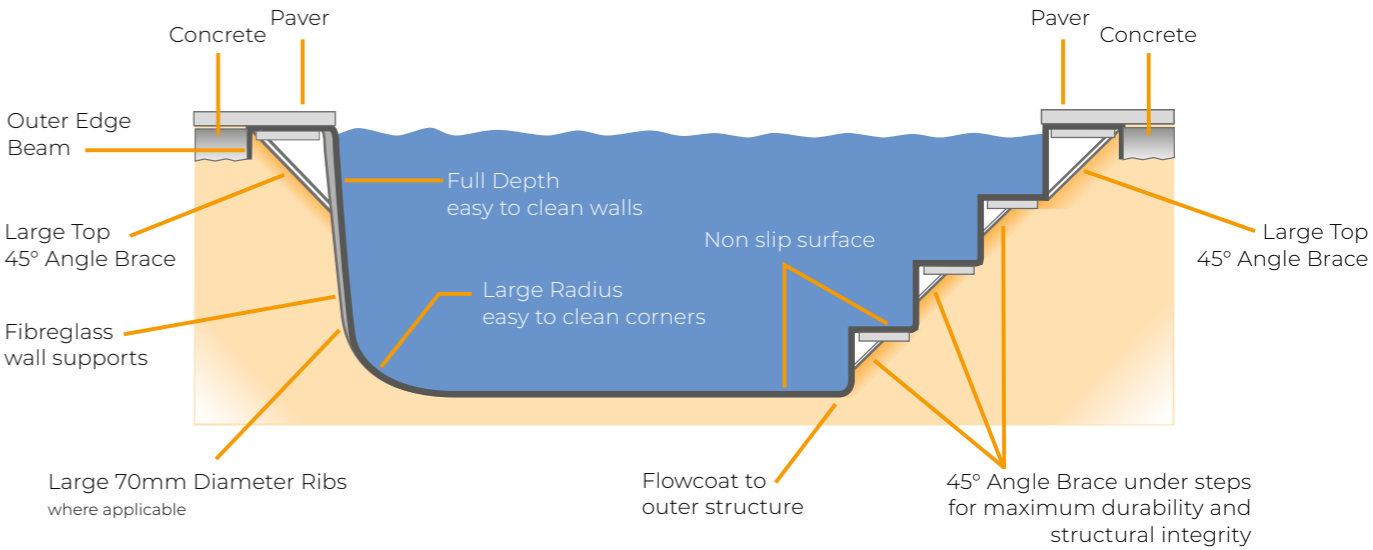

E. Outer Surface Layer: Freedoms black waxed resin outer surface layer is proof that we really do care more than any other pool manufacturer. This formula is applied to seal any exposed fibres and to provide an extra layer of protection against the elements.

! The above certified construction method is approved by **Lloyd's of London** for the construction of boats and fibreglass swimming pools.

STRONGER BY DESIGN

Over time, we have consistently developed and improved existing design principles and applied them to our pool models. Freedom Pools always provide a high quality and durable solution for your pool requirements.

Tried and tested engineering standards and installation techniques have been refined over many years to give you total peace of mind when you choose a Freedom Pool.

OUR DESIGNS

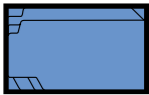

Luxury Designer Pools

Our sophisticated designs range from family friendly entertaining pools to modern streamline pools and everything in between. Each pool has been diligently designed by our world class designers to compliment a wide range of landscapes and architecture. Most of our designs feature swim outs in the deep end corners as an added safety feature, which

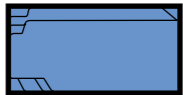

can also be used as a great seat or a platform to enter and exit the pool. Textured cosmetic surfaces on the steps and floor provide added grip when moving around the pool. Our pools are designed so that they are much easier to clean, designed with smooth, rounded edges, which avoid awkward hard to clean places where dirt can easily gather.

PLATINUM COLLECTION

Modern sophistication is the main term used when talking about the Platinum Collection. The Platinum Collection consists of rectangle shaped pools in 8 different sizes to pair with a variety of small to large family homes. The intelligent design incorporated in to the Platinum compliments modern architecture exceptionally! The pools feature dual entry with steps on each side of the pool making it very versatile. The dual swim out feature provides great safety and a deep end exit of the pool. All the components have been carefully sized to ensure that maximum swimming space is achieved, so you can feel the Freedom!

INSTALLATION PROCESS

1. Take advantage of our free no obligation site inspection service or book an appointment to discuss a project with one of our friendly sales consultants. **Don't forget your plans!**

2. After making the right choice to invest in a Freedom pool, we can start arranging specifications, and layout plans for the building permit.

3. After council approves the proposed plans, we will arrange a date for your installation to begin.

4. On the day of installation, the Freedom Pools foreman will start early with the excavation company to carefully dig for the pool.

5. An amount of scoria now goes in to form the base that the pool will sit on. The base gets a good screed to ensure it is flat and level.

6. Now the greatest spectacle of the whole install, lifting the pool in place. Whether by crane or by digger and gantry, the Freedom Pools team get it done.

7. Once in place, we ensure the heights and distances followed by unleashing the hydrant hose. If we don't have access to hydrants we can arrange water by tanker truck.

8. While the pool fills with water, the team will begin back filling with scoria that's mixed with cement and start the pipe work.

9. Now the freedom pools team will begin to establish and test the system to ensure the filtration is working correctly.

10. Your sales consultant will arrange a time with you to handover the pool with full instructions on how everything works.

11. It is time for the landscapers to start their work and finish the transformation of your back yard.

12. **Job done!** Knowing that you chose a pool from a certified eco-friendly manufacturer, you will have enjoyment with friends and family for years to come.

Building your dream

BESTSELLING ACCESSORIES

Freedom Pools offers a wide range of services and accessories to complement your new swimming pool. Feel free to speak to a Freedom staff member to see how we can help you.

HEAT PUMPS

Swim all year round without burning your money away.

SOLAR HEATING

Extend your swimming season with the sun's free energy.

ROBOTIC CLEANERS

A product that will clean and maintain your pool's aesthetic appeal while in use.

SALTWATER CHLORINATION

Produce chlorine in your pool automatically for around 10% of the cost of conventional chlorination.

MINERAL SANITISER

Sanitise your pool with EcoSprings minerals and create a healthy natural swimming environment.

SOLAR BLANKETS & ROLLERS

Solar blankets help with saving water by virtually stopping evaporation. They also provide solar heating, thermal efficiency and can keep your pool cleaner when in use. Standard and hidden in-ground models available.

FENCING

Fencing is the most important and vital addition to add to your new pool. Choose from a huge range of styles and colours.

LED LIGHTING

Enhance night time swimming aesthetics with a wide variety of different lighting styles and colours.

WATERFALL FEATURE

Take your pool to the next level with a Freedom Pool's water feature and create the ultimate swimming experience.

STREAM JET FOUNTAINS

Add a stunning water display to your new swimming pool, not only are they visually pleasing but they are pleasing to listen to as well.

SWIM, SPA & MICRO JETS

You can swim for exercise in any size pool with the addition of a swim jet. With an adjustable current, you choose the ideal swimming pace.

HOW TO GET STARTED

Not everything in life is free... but here at Freedom Pools we offer a **free no obligation Site Assessment**

Once you're in the market for a pool, there are many things that you'll need to consider and decide on. Making an enquiry with your local Freedom Pool Consultant would make for a great first step to planning the project. A Freedom Pools consultant can offer you great advice for making your dream pool a reality.

When putting in a pool, you will need to consider the landscape surrounding the pool. The landscaping is important, a clever layout with thought put into planting, paving material, and flow from the house can have a significant impact on the value of a property. As an example, budgeting a bit more for decorative concrete can make all the difference.

Commissioning a landscape design by a specialist can be one of the best things you can do. This will assist in building the vision, giving you an idea of what the project will look like completed and provide a template for everybody to work towards. Most landscape

designers can offer a total project management service. Consulting with a landscaper tradesmen at home can be a great idea too, the landscaper may be able to provide landscape design services also, talk to a Freedom Pools Consultant for referrals to our preferred landscapers.

Many New Zealander's have the kiwi can do attitude. Researching from home improvement magazines and the Internet can help immensely with building your vision. Whatever way you decide to do it, the team at Freedom is there to assist.

Freedom offer a no obligation free site assessment. This gives you a great opportunity to talk to a professional who really knows pools. To take advantage of this great offer, request a site assessment from your nearest dealer at:

www.freedompools.co.nz or call **0800 373 111** and talk to our friendly staff.

Testimonials

"We'd had other people who had looked at the property and they were salesmen. They told us they could do anything we wanted to do. What they didn't tell us is that to do it that way would cost us a fortune if they couldn't do it the way they thought."

Craig McLeish

"What gave Freedom Pools the edge over the competition, was the honesty of the company. We went up to Freedom and they were good in that they chatted and answered questions rather than trying to sell us things I was able to speak freely about what I wanted, he says, so we were able to get things done without wasting time. It's the family area we always dreamed about."

Mark Gribble

"Sometimes you can have a few teething problems in projects like this. We didn't have anything going wrong and Freedom Pool's after sales service has been brilliant. Out of all the contractors we've dealt with at our house for different things, they have been the most responsive. They've turned up, done what needed to be done. They're a real breath of fresh air in that regards, because not many companies perform that way. Without hesitation, if you want someone who you can trust, you can absolutely trust these guys."
